# ON'S Industry Germany

## Quality products and QS at the highest stage:

Exclusive use of high-quality raw materials, supplied by producers and trading companies who are not only QS certified, but also have top values in the supplier scoring.

Comprehensive control systems as well as continuous quality and lab analyses during the entire production process.

All Lio Oil products are adapted continuously to the new requirements of modern aggregates and are approved by most car and truck manufacturers.

All Lio Oil products are prime raffinates and conform to national and international specification and classification.
